

SOFTWARE SPECIFICATIONS BULLETIN 2

TAX YEAR 2014

August 26, 2014

This document supplements other Nebraska e-file documentation, and is intended to notify software developers in the Federal/State Electronic Filing Program of changes to original specifications releases.

TAX YEAR 2014 BULLETIN #2

August 26, 2014

Nebraska 1040N MeF Program Changes and Clarifications

Issue:

A change to the Nebraska School District Codes Listing is being made as a result of corrections announced by the Nebraska Department of Education.

Action Required:

The version of the 2014 Nebraska Public High School District Codes posted on our Developer webpage on 8/4/2014 was incorrect. If you have already accessed this document, you will need to download it again to obtain the most current and accurate version.

Background:

A land parcel swap between Arthur County High School and the Hyannis High School resulted in both Grant and Arthur counties showing a second school district. Recently, this land/parcel swap was reversed. The result is that Arthur County will display only one school valid district in the county (High School District Code 0303500) and Grant County will display only one school district in the county (School District Code 3838011).

Removed from this document were:

03	ARTHUR	38	GRANT	011	HYANNIS 11	0338011
38	GRANT	03	ARTHUR	500	ARTHUR COUNTY 500	3803500

Corrected in this document:

38	GRANT	38	GRANT	011	HYANNIS 11	3838011
----	-------	----	-------	-----	------------	---------
